Drug Formulary

INTRODUCTION

What is a formulary?

A formulary is a list of generic, brand, and specialty drugs. It is used by practitioners to identify drugs that offer the best overall value, considering effectiveness, safety, and cost.

How is the drug formulary developed?

The formulary is developed by the Kaiser Permanente Pharmacy and Therapeutics (P&T) Committee. The P&T Committee is composed of physicians from various medical specialties, pharmacists, and a consumer member. The P&T Committee reviews and selects the most appropriate drugs in each class for the formulary based on safety, effectiveness, and cost.

The P&T Committee meets quarterly to review new and existing drugs to ensure that the formulary remains responsive to the needs of members and providers.

How do I search the formulary?

Drugs on the formulary are listed by therapeutic class. An alphabetical index is included at the end of this document to assist in locating specific drugs.

Drugs are listed by generic name if a generic is available. If there is no generic available, drugs are listed by the brand name. Drugs are organized by class and drug formulary tier. Drugs administered in a provider's office or in a clinic (e.g., drugs given intravenously) may not be listed on the formulary. For coverage of these drugs, refer to your Benefit Booklet.

How do I use the formulary to understand my drug coverage?

Drug coverage is based on an individual's contracted benefit. Coverage for a specific drug is subject to each member's medical coverage agreement. Please consult your Benefit Booklet or call Member Service if you have questions about your drug coverage.

Kaiser Permanente will only cover FDA-approved drugs used for non-experimental therapies. Most plans exclude experimental and investigational drugs, over-the-counter drugs, drugs used in the treatment of sexual dysfunction disorders, drugs for anticipated illnesses while traveling, or drugs used for cosmetic purposes. Please consult your Benefit Booklet for limitations and exclusions.

Medications not listed in this document are not on the formulary at the time of publication. The most current information is online at www.kp.org/wa/formulary. Non-formulary drugs are not covered unless approved by the health plan as a coverage exception. The prescriber must contact Kaiser Permanente to determine the medical necessity of the non-formulary medication. An alternative formulary medication will be recommended when clinically appropriate. If a coverage exception is not approved, the patient is responsible for the full price of the drug.

Prior authorization and step therapy requests are considered based on coverage criteria requirements approved by the P&T Committee. To request review of an exception to Kaiser Permanente requirements for coverage of prescription drugs, you or your prescriber may contact Kaiser Permanente Member Services at 1-888-630-4636 and request an exception. If the evidence your prescriber provides meets medical necessity, an

exception may be approved. Exceptions to required therapy that may be approved include: contraindications, clinical factors associated with adverse reactions, clinical factors reducing effect, other risks of clinical harm, and barriers to compliance with clinical care. Your prescriber may also request temporary coverage while the exception request is being processed.

Generic drugs are substituted when available and allowed by your prescriber. When a generic is available, the brand-name drug is generally considered non-formulary and subject to a higher cost share.

The drug formulary is updated periodically and is subject to change. If a drug will be removed from the formulary, members who filled the drug in the prior three months will be notified by letter of the upcoming change. A formulary change notice will also be posted on the member website at least 60 days prior to the effective date.

Drug Formulary Tiers

Tier	Description
Tier P	Preventative drugs and preferred contraceptives: The Affordable Care Act (ACA) requires that preventative drugs recommended by the U.S. Preventative Services Task Force (USPSTF) are covered in full.
Tier 1	Preferred generic: Generic drugs are copies of brand name drugs in safety, effectiveness, and quality. They contain the same exact quantities of the same active ingredients and are more affordable than the brand name drug.
Tier 2	Preferred brand: Preferred brand drugs do not have a generic alternative, but were determined by the P&T Committee to have high value in their therapeutic class.
Tier 3	Non-preferred: Non-preferred drugs were determined by the P&T Committee to have higher value alternatives in preferred tiers.
Tier 4	Specialty: Specialty drugs are high-cost drugs prescribed by a physician for the treatment of complex conditions. Some specialty products are dispensed from a preferred specialty pharmacy vendor.
Tier C	Oral chemotherapy: Washington State law requires that cancer drugs be covered at a comparable level when received at a doctor's office or picked up from the pharmacy. This tier was created to ensure comparable coverage of preferred anti-cancer drugs regardless where the drug was received.
Tier M	Medical benefit: These drugs are usually given at the provider's office and are covered under the medical benefit.

What are the methods that Kaiser Permanente uses to ensure appropriate and safe use of formulary drugs?

Prior Authorization (PA)

The P&T Committee determines that certain drugs should require prior authorization before they will be covered. These drugs most often have alternatives on the formulary, safety concerns, or a high potential for inappropriate use. To request coverage for prior authorization drugs, you or your prescriber must contact Kaiser Permanente. Drugs requiring prior authorization are indicated with a “PA” superscript next to the drug name.

Step Therapy (ST)

Step therapy requires you to try certain preferred drugs before receiving coverage for the drug you were prescribed. Step therapy is added by the P&T Committee. Step therapy automatically looks at your prescription history when you fill the drug you were prescribed. If you have tried the preferred drugs required by step therapy, the drug you were prescribed will automatically be covered. To request step therapy exceptions, you or your prescriber must contact Kaiser Permanente. Drugs requiring step therapy are indicated with a “ST” superscript next to the drug name.

Quantity Limit (QL)

A quantity limit defines how much of a particular drug you can get during a specific time period or the maximum days supply that you can get at once. The P&T Committee determines if a drug should have a quantity limit. To request exceptions to quantity limits, your prescriber must contact Kaiser Permanente. Drugs with quantity limits are indicated with “QL” superscript next to the drug name.

High Dose Pain Medicine Prescriber Review

Members on high doses of certain pain medicines will need their prescriber to confirm safety standards are in place annually to continue coverage of therapy.

Drugs Limited to Select Pharmacies

Some drugs are required to be dispensed from a preferred specialty pharmacy vendor. Members with an out-of-network benefit may use other pharmacies; however, they may pay a higher cost share.

Please consult your Benefit Booklet for limitations and exclusions. Drugs limited to select pharmacies are listed on the www.kp.org/wa/formulary webpage.

Maintenance Drugs

Maintenance drugs are used on a continuing basis for the treatment of chronic conditions. Health plans require that pharmacy benefit maintenance drugs are filled at Kaiser Permanente Washington Mail Order or Kaiser Permanente Clinic Pharmacies for ongoing health plan coverage. Virtual Plus health plans specifically require that pharmacy benefit maintenance drugs are filled at the Kaiser Permanente Washington Mail Order Pharmacy after the first fill for health plan coverage. Please consult your Evidence of Coverage or call Member Services at 1-888-901-4636 if you have questions about your drug coverage. The maintenance drug list is available at www.kp.org/wa/formulary and is subject to change without prior notification.

Covered Diabetic Supplies

Some diabetic supplies may be covered at a Tier 1 cost share if they are filled as a prescription. These items are:

- Preferred blood glucose strips:

- One Touch Verio
- One Touch Ultra
- Prodigy – prior authorization required
- Contour Next – prior authorization required
- Freestyle – prior authorization required
- Disposable insulin syringes and needles
- Lancing devices and lancets

Preferred blood glucose meters are covered only when filled through mail order pharmacy.

Mail Order Pharmacy Service

Mail order is convenient and efficiently utilizes Kaiser Permanente's resources. This service works best for drugs that must be taken on regular basis, such as birth control pills and drugs for high blood pressure, high cholesterol, or other chronic conditions.

To begin using mail order, ask your prescriber to send your prescription directly to the Mail Order Pharmacy. To transfer an existing prescription from a retail pharmacy, contact the Mail Order Pharmacy.

Address: Kaiser Permanente Mail Order
Pharmacy PO Box 34383
Seattle, WA 98124-1383

Phone: 800-245-RXRX (1-800-245-7979)

Fax: 206-630-7950, or toll-free 1-800-350-1683

Preventative Medications and Preferred Contraceptives

In accordance with the Affordable Care Act (ACA) requirements for preventive services, most plans cover preventative care medicines and contraceptives in full. If your plan offers ACA benefits, all prescribed FDA approved contraceptive methods from the Kaiser Permanente formulary list will be covered in full when obtained in-network. For plans with out-of-network (OON) benefits, contraceptives will be subject to the OON cost-share. The list of the preventative medications covered in full is available on the www.kp.org/wa/formulary webpage.

Please consult your Benefit Booklet under "Preventive Services" or call Member Service if you have questions about your coverage for these drugs.

If you request coverage for a non-preferred contraceptive, we will contact your provider to recommend a preferred generic or therapeutically equivalent product. If you and your provider determine that the preferred contraceptive(s) would be medically inappropriate, your provider must request a contraceptive waiver. If waiver is completed, the requested non-preferred contraceptive will be covered in full.

Excluded Prescription Products for Medications that have Over-The-Counter (OTC) Alternatives

There are certain prescription products that have the same or similar products available over-the-counter (OTC) without a prescription. In certain cases, Kaiser Permanente will not cover the prescription product. The following prescription drug products are excluded from coverage: esomeprazole magnesium (Nexium), omeprazole/sodium bicarbonate (Zegerid), budesonide nasal spray (Rhinocort Aqua), triamcinolone nasal spray (Nasacort), and

fluticasone propionate nasal spray (Flonase).

Medical Benefit Injectable Drugs

Some drugs are given in a non-hospital setting such as home infusion, a medical office, a physician's office, or an infusion suite. These drugs are covered under the medical benefit but may require prior authorization or a non-hospital setting. The list of medical benefit injectable drugs is available on the www.kp.org/wa/formulary webpage.

How do I get additional information?

Please contact Member Service at 1-888-630-4636 with any questions or concerns regarding the information contained in this document.

The most current drug formulary is available at www.kp.org/wa/formulary.

Kaiser Permanente Nondiscrimination Notice and Language Access Services

KAISER PERMANENTE NONDISCRIMINATION NOTICE

Kaiser Foundation Health Plan of Washington and Kaiser Foundation Health Plan of Washington Options, Inc. ("Kaiser Permanente") comply with applicable federal civil rights laws and do not discriminate, exclude people, or treat them differently on the basis of race, color, national origin, age, disability, sex, sexual orientation, gender identity, or any other basis protected by applicable federal, state, or local law. We also:

Provide free aids and services to people with disabilities to help ensure effective communication, such as:

- Qualified sign language interpreters
- Written information in other formats (large print, audio, and accessible electronic formats)
- Assistive devices (magnifiers, Pocket Talkers, and other aids)

Provide free language services to people whose primary language is not English, such as:

- Qualified interpreters
- Information written in other languages

If you need these services, contact Kaiser Permanente.

If you believe that Kaiser Permanente has failed to provide these services or discriminated in another way on the basis of race, color, national origin, age, disability, sex, sexual orientation, or gender identity, you can file a grievance. Please call us if you need help submitting a grievance. The Civil Rights Coordinator will be notified of all grievances related to discrimination.
